Question 6

A chef shares his exclusive recipe to cook chicken curry. His ingredients are 800 g chicken, 1/2-1 coconut milk, 180 g curry paste, 3 large potato, 3 large onion and 3 stalks curry leaves. He also instructs the cooking steps. First, saute curry paste in hot oil until fragrant. Add in chicken. Continue to saute until chicken releases oil. Second, add in water, tamarind paste, curry leaves, potato, onion, sugar and salt. Let chicken simmer in slow fire until potatoes becomes soft and chicken is cooked thoroughly. Lastly, add in coconut milk and cook until oil starts to separate. Remove and serve.

Your task is to develop a web page using the information given above.

Question 7

(a) Develop a web page by using the information given below with the html Anchor tag. Requirement:

1. Text link will be displayed in the current browser window.
